

Fenofoam HS 9070

Our flame-retarded rigid PUR foam system Fenofoam HS 9070 has been developed for the production of various filter elements (e.g. filter frames). Moreover, due to its self-releasing properties the system is also very user-friendly.

Applications

- **Filters (e.g. filter frames)**
- Model construction
- Decorative elements
- Etc.

Properties & Benefits

- **Flame-retarded & self-releasing**
- Easy processability
- High hardness (adjustable)
- Excellent surface finish
